

Spec Sheets

Sport -SOS 001
Cushion - SOS 002

Product Overview

Save Our Soles (SOS) is Australian recycled flooring that is ideal for commercial and domestic applications. It offers great underfoot comfort, absorbs walking noise and has excellent non-slip properties. The SOS material consists of 100% recycled material which uses a blend of recycled shoes and rubber from recycled tyres. All material is collected, recycled and manufactured in Australia. Thicknesses from 3mm up to 8mm are available with varying suitabilities of use. With 100% Australian recycled materials and ecologically responsible manufacturing process, SOS flooring and mats gives you the best outcomes for performance and looking after the planets resources.

SPORT / SOS 001

1000 Density - 8.74 N/mm

CUSHION / SOS 002

800 Density - 5.64 N/mm²

Specifications

Roll Width	1.1m
Thickness	3 - 8mm
Temperature Range	-25°C to 80°C
Roll Length	Our flooring is only available in log quantities. Orders can be cut and re-rolled at any length, minimum 5L/m
Tolerance	Roll width \pm 2% Roll length \pm 4% Thickness \pm 1mm Density \pm 15%
